The Problem

**INCONSISTENT. INEFFECTIVE.
FORGOTTEN.**

Standing out online is harder than ever. Many businesses struggle to create consistent, high-quality content that attracts customers and builds trust, and most have no plan.

Our Solution

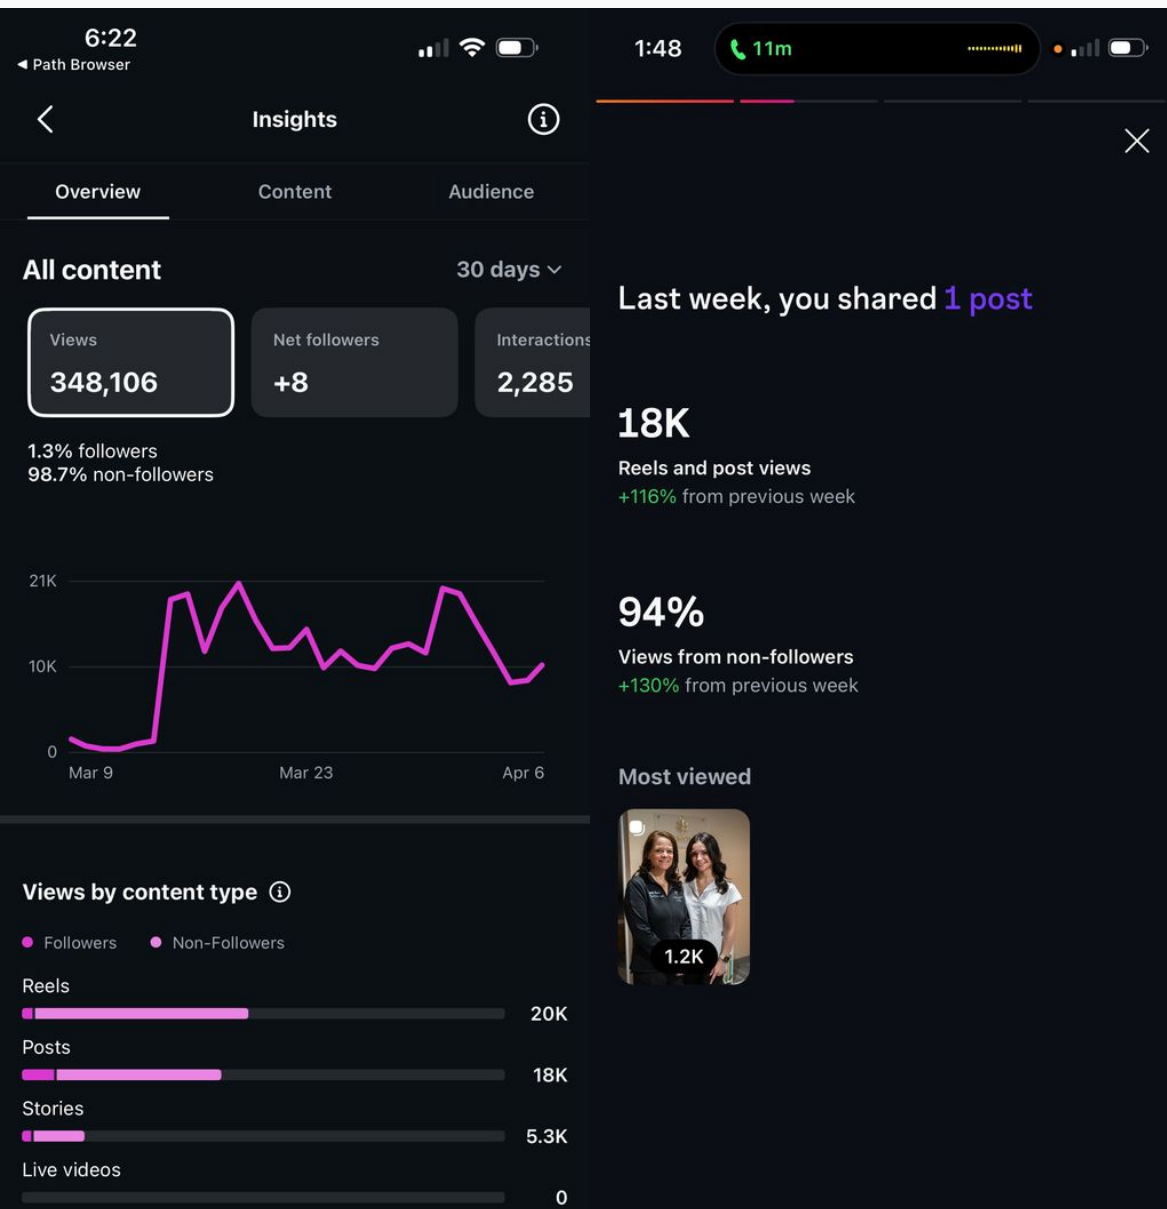

Real Results, Real Data, A Real Plan.

We combine professional video production, photography, and strategic marketing to help your business stand out. We create content with purpose—designed to build trust, attract your ideal audience, and turn attention into measurable growth.

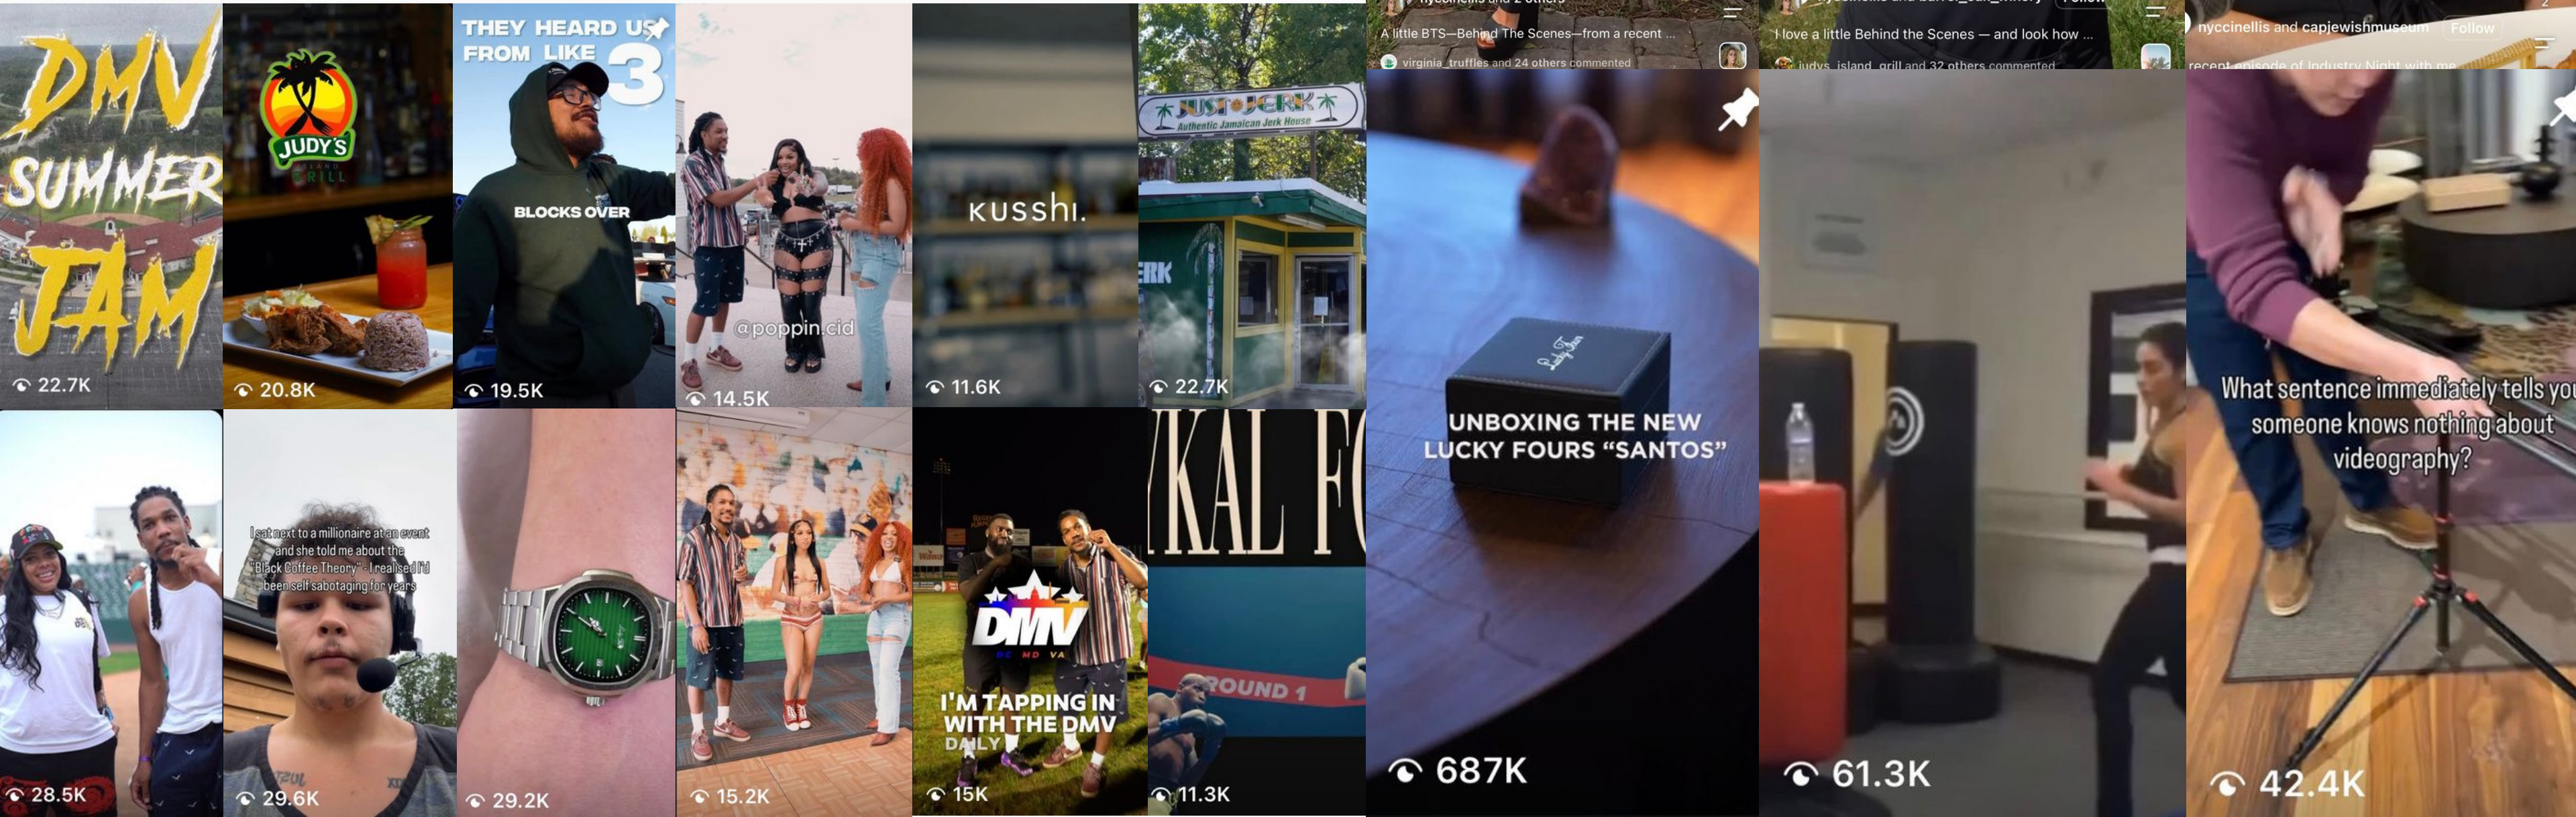

Our Success

With over 5+ million views across our network, we treat each piece of content, as unique, giving it the opportunity to maximize its viral potential.

Content That Performs

We create each piece of content with intention, fitting it into the mold that we've curated for your personal brand or business. Here are some of our top performing pieces of content.

Why Now

Timing Aligns with Digital Readiness

Today's customers make decisions online before they ever reach out. If your brand isn't consistently showing up with professional, engaging content, you're losing attention—and business—to competitors who are. Investing in your brand now means staying relevant, building trust, and positioning your business for long-term growth.

Getting Started

Experience the difference first. Scale with confidence after.

Our Introductory Package

Designed for businesses, brands, and content creators, this is a one-time introductory experience to see what it's like working with 3EYE Media.

For \$500, you'll receive:

- 1 cinematic short-form reel (our signature Opus Magnum)
- 2 UGC-style reels
- 50–100 professionally edited photos
- A strategy session where we'll identify your goals, develop a marketing plan, and build a content calendar tailored to your brand.

This package is intentionally single-use.

We don't sign clients onto retainers before working together—we believe in earning your business first. After we've delivered your content and gained a clear understanding of your brand, we'll create a custom retainer strategy designed specifically for your long-term growth.
